Leather Care & Disinfection

The Good Olde Leathercream *Intensive leather care especially for used and dried out leather.*

- Nourishes leather with natural beeswax, fine oils, lanolin and carnauba wax.
- When used, leather will be thoroughly cleaned, remaining supple and pliable.
- Keeps the leather's natural grip and brand new look.

Leather Foam *All in one with foam!*

- Cleansing: Glycerine remove dirt gently yet thoroughly, but without drying out the leather.
- Grooming: Glycerine replenishes the leather's oils like a smooth moisturizing agent.
- Protection: Anti-oxidants and preservatives form a finish to guard against mould formation and protect against wear.

Oil Soap *Cleans and cares, makes the leather smooth. The vegetable-based universal cleaner*

- A saddle and leather soap of the highest quality made from pure vegetable oils.
- Cleans leather while replenishing lost oils.
- It is the ideal clean up soap for home and stable.

Zinc Oxide Spray *To cover wounds. Supports natural regeneration of skin.*

- Creates a protective film against wound secretions, sweat, urine, water and other harmful influences.
- Dries and soothes the wound but does not seal it off.
- Disinfects at the same time.

Silver Salve *For special skin care.*

- Pure silver ions have an antiseptic effect and can suppress bacterial growth.
- With Silver Salve applied, the skin calms down.
- High-grade vegetable oils provide cracked skin with moisture and make it supple.
- Can also be used on the pastern for care against moisture and bacteria.

Disinfection Spray *Protection against all kinds of bacteria and fungus.*

- Eliminates disease-causing microorganisms which can infect humans and animals.
- Disinfects quickly and effectively.
- Not neutralised by other substances such as blood or puss.

PRODUCT QUICK VIEW GUIDE

- The moisturizing Tea-Tree Lotion penetrates thoroughly, cooling and soothing irritated skin.
- Stimulates hair growth and strengthens the skin's natural protective layer.

Wellbeing - Recovery

Cellsius Gel for Horses

Retains the cool-down effect achieved by a quick hosing down of the horse's legs.

- Stimulates fast recovery and relieves strained ligaments, tendons and muscles.
- Can be applied to the horse's wet legs and stays in place much like a cooling cuff.
- The strong, long-lasting cooling effect penetrates deeply.

Propolis Gel

Natural antibiotic with properties which effectively regenerate deep tissue.

- Healing effect through vitamins, resins, micronutrients and healing plant substances.
- Effective for superficial abrasions, saddle and girth sores as well as mallenders.
- Functions as a disinfectant.

Mineral Pack with Arnica

Cools and soothes swellings over an extended period of time.

- The special combination of alumina with arnica makes leovet Mineral Pack exceptionally effective.
- The active ingredients regenerate, mobilise and activate deeply.
- It is smooth, silky and very easy to apply.

Cold Pack

Anti-inflammatory blood circulation stimulant, improves mobility and reduces swelling.

- For all kinds of muscle pain.
- Heals and soothes bruises, sprains, chipped hooves. Prevents venous swelling through stabling.
- Works in two phases: intense cooling first, then pleasant warming.

Cold Pack Plus

With Aloe Vera for greater sense of well-being.

- Aloe Vera contains vitamins, mineral salts, amino acids and enzymes.
- Improves mobility, alleviates pain and promotes relaxation.
- Treats and nourishes the skin with moisture and rich natural substances.

Thermo-Massage Especially for horses with tense back muscles.

Optimal for warming up before training and exertion.

- Immediately creates warmth without prolonged massage.
- The result is enhanced oxygen supply (increased flow) to the muscles.

Repellents

Power Phaser

Absolute protection against mosquitoes, horseflies, flies and ticks.

- Tested and approved by the Swiss Institute for Tropical Medicine: guaranteed to be absolutely effective in repelling insects for a duration of 7 hours.
- Permanent adhesion and a guaranteed effect even when the horse sweats.
- Gentle on skin and perfectly suited for horses with sensitive skin. Can be used by riders.

Power Phaser Durativ

Insect repellent gel with a particularly high concentration of active ingredients.

- The sponge allows easy application of gel on your horse's sensitive areas.
- Particularly convenient for shy and nervous horses.
- Even when perspiring, your horse is protected effectively during a long adhesion period against mosquitoes, horseflies, flies and ticks.

Tam Tam Vet

Insect repellent with natural active ingredients.

- Made with completely natural active ingredients.
- Adheres particularly well to hair due to the coating effect.
- Can be used by riders.
- Offers reliable insect protection that lasts four hours.

Anti-bite

Protects wood, metal, plastics, bandages and all accessories from bites.

- Mane and tail are reliably protected against nibbling.
- Bitrex™ is the most bitter substance on earth. Its bitterness has even earned it unrivalled an entry in the Guinness Book of Records.
- Bitrex™ is odourless and poses no threat to the health of horse or rider.

HOOF LAB

Tailored to every hoof. 5 hoof care innovations!

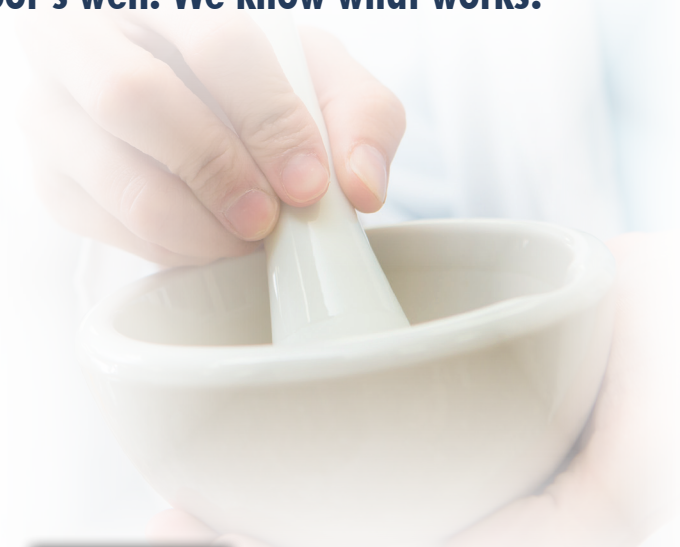

Experience the new HOOF LAB products from leovet

HOOF LAB New. More intensive. Better. New active ingredients.

HOOF LAB Innovative packaging makes application easier.

HOOF LAB Without petroleum jelly, mineral oil, parabens.

All's well if the hoof's well. We know what works!

HOOF LAB Hoof Hardener

Hardenes the hoof, reduces cracking and abrasion of the horn

Ideal for horses with chipped and brittle hooves, low heels, separating hoof walls, and for barefoot horses. Hoof wall and sole are strengthened. Secures a firm seat for the shoe. Protects against hoof decay and makes the hoof significantly more durable. Effective without harmful chemical agents! Does not contain glutaraldehyde.

Extra: with integrated pump applicator!

HOOF LAB Elastic Cream

Promotes elasticity and stability

With sallow thorn, ceramides and lecithin. The elasticity and resilience of the hoof horn, the walls and heels are significantly improved. Strengthens the hoof and its protective mechanisms. Supports the moisture balance. For elastic, stronger hooves! Keeps smooth and shiny. Without petroleum jelly, mineral oil or parabens!

Extra: with integrated pump applicator!

HOOF LAB Hoof Grease

**Laurel-Eucalyptus
Smart price!**

Nourishes and strengthens the hoof. Regenerates brittle and cracking horn. Eucalyptus oil promotes natural growth and elasticity. Hoof Grease is absorbed quickly and seals moisture in the hoof. The hoof retains its breathability. For beautiful, well-groomed hooves.

Without petroleum jelly, mineral oil or parabens!

HOOF LAB Natural Oil Balm

**With Biotin
Natural building nutrients for the hoof**

The new, natural hoof care for every day. The creamy balm makes the hooves strong and elastic with naturally nourishing oils. Moisture is transported deeply into the horn. The balm is quickly absorbed into the capillaries. Greatly improves horn quality, for a beautiful shine! Without petroleum jelly, mineral oil or parabens.

Extra: including brush for fast and easy application.

HOOF LAB Hoof Oil

For strong hooves

With pure natural oils

Pure plant oils from avocado, jojoba, sesame and calendula nourish the horn, keeping it elastic and strong. Activates hoof growth, protects against separating hoof walls and decay. Brings moisture into the hoof and gives a long-lasting shine.

Extra: with integrated brush for fast and clean hoof care.

...it works!
