

# Sustainable Home Network

Ready to turn change to your advantage?

# Take the opportunity Be the change

The British government's £3 billion green recovery plan is opening up new opportunities for those who have the skills to deliver green home improvements.

Homeowners across the nation are already making changes to the way they live. They're shopping locally, reducing their energy usage, recycling more and driving less. And now, they're ready to make a new change: to more eco-friendly home heating.

With access to new government funding, more and more people are set to transform their homes, harnessing the power of renewable energy to kickstart a positive change for a better future.

Ready to turn change to your advantage?

Find out more about our Sustainable Home Network programme at [www.energyforchange.com](http://www.energyforchange.com).

Or if you're already MCS accredited, fast-track your Sustainable Home Network application at [daikin.co.uk/shn-fast-track](http://daikin.co.uk/shn-fast-track)

At Daikin, we're leading innovators in the low-carbon and renewable technologies that are **eligible for funding under the Green Homes Grant**. So we're inviting you to be the change Britain needs, and join the Daikin Sustainable Home Network.

- **Enjoy free training** on the Daikin Altherma product range
- **Receive a welcome pack** of branded workwear and office supplies
- **Get free installation and commissioning support** on your first installation
- **Access the widest range of domestic heat pumps** on the market
- **Offer your customers extra savings** with our Boiler Scrappage vouchers
- **Receive qualified sales leads** from homeowners in your area

## Three ways to become the Energy for Change

Our Sustainable Home Network programme offers a tailored solution for businesses of all sizes – no matter where you are on your renewable heating journey.

- **Sustainable Home Installer**  
For businesses new to Daikin, or taking their first steps into the world of renewable heat technology, who are looking to provide sustainable solutions for the UK's homes. You only need to complete one Daikin training course to unlock this opportunity, no matter the size of your business.
- **Sustainable Home Expert**  
For those trained on our full range of low temperature, high temperature and hybrid solutions, with F-Gas capability. Our second tier gives you access to enhanced benefits such as extended product warranty and qualified sales leads.
- **Sustainable Home Centre**  
Ready to create a change movement? Sustainable Home Centres are at the forefront of the eco-friendly home heating market, showcasing a range of Daikin products to local homeowners and installers, and sharing in our world-leading reputation for quality.

# Our expert training

Your future-proofed business

When you become a Daikin Sustainable Home Installer, we'll give you everything you need to install the next generation of renewable heating systems and energy-efficient heat pumps.

To get you started, we offer three levels of product training: standard installation; troubleshooting & commissioning; and advanced fault find & servicing, which are now available for our Daikin Altherma Monobloc range, and ideal for new heat pump installers.

As soon as you've completed a Daikin Altherma standard installation course, you can start trading as a Daikin Sustainable Home Installer.

You can complete your training online, or at one of our training centres, equipped with the latest Daikin technology. Whichever you choose, your team will develop the skills and knowledge they need to ensure every installation is of the highest quality.

So unlock a wealth of opportunities today, and take the first step to futureproofing and expanding your business.

## And the support doesn't end there.

To get the best from your business, you need complete, comprehensive support. Once you're part of our Sustainable Home Network, you'll receive:

- A dedicated account manager
- Free product training
- A welcome pack of branded workwear and office supplies
- Free installation and commissioning support on your first installation
- Sales and accreditation support from our network of Sustainable Home Centres
- Marketing materials and merchandise
- Access to the my.daikin.co.uk customer portal, for online training bookings, order and delivery tracking, system selection tools, customer aftercare and rewards

## Already MCS accredited? Fast-track your registration

In September 2020, more than 600,000 homeowners will be eligible for the government's Green Homes Grant, receiving up to £5,000 towards the cost of installing their new Daikin Altherma heat pump when installed by a TrustMark or MCS accredited installer.

With more people than ever ready to make their change for good, the nation needs trusted experts who can help. Fast-track your Sustainable Home Network registration today, and start installing our industry-leading technology sooner.

Join the Sustainable Home Network and, if you're already MCS accredited, fast-track your registration at [daikin.co.uk/shn-fast-track](https://www.daikin.co.uk/shn-fast-track)

Or find out more at [www.energyforchange.com](https://www.energyforchange.com)

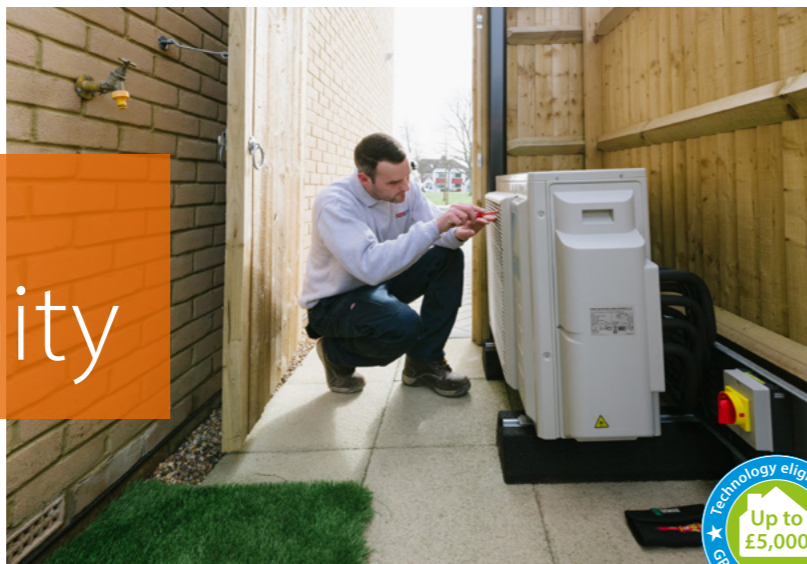

# Access a network of opportunity

Once you have gained experience in our full range of low temperature, high temperature and hybrid solution and have F-Gas capability you can become a Sustainable Home Expert. Our Sustainable Home Experts work on larger specified projects, as well as having access to our air-to-air range of heat pumps for residential cooling and heating.

As a Sustainable Home Expert, you'll be able to buy directly from Daikin and you can even open your own Daikin showroom, supported by Daikin.

#energyforchange

## Helping you lead the future of sustainable home heating.

To make the most of this exciting opportunity, we're offering complete, comprehensive support. Along with all the benefits offered in our Installer programme, you'll also receive:

- Unlimited free product training
- 5-year end-user warranty for your customers
- Qualified sales leads from customers in your region
- Business development fund to spend on marketing, events and rewards
- Co-branded merchandising and marketing materials complete with your contact details
- Access to our exclusive mobile showrooms
- Dedicated customer account contact and system design support

## Become the energy for change

Find out more about our Sustainable Home Network programme at [www.energyforchange.com](http://www.energyforchange.com)

If you're already MCS accredited, you can fast-track your application at [daikin.co.uk/shn-fast-track](http://daikin.co.uk/shn-fast-track)

# Lead the charge

Make change your advantage

Ready to create a change movement? Capitalise on the demand created by Green Homes Grant funding, and stand at the forefront of the eco-friendly home heating market, by becoming a Sustainable Home Centre.

Sustainable Home Centres provide a hub for consumers to visit for the very latest inspiration and information on the move towards renewable heating. The Centres showcase a core range of renewable heating and hybrid solutions and even residential AC and air purifier solutions too.

[#energyforchange](#)

As a local showroom and stockist, Sustainable Home Centres also provide advice, support and training to local installers, acting as reseller and local centre of excellence, while ensuring the highest level of service to installers who are new to the renewables market.

Sustainable Home Centres not only cement our reputation for providing world-class quality products, but are also the focus for Daikin's marketing investment in your region, which will generate qualified sales leads for the Sustainable Home Network.

## Be a pioneer of the UK's sustainability movement.

This is your opportunity to lead the movement towards a low carbon future. You'll access all the benefits offered through our other Sustainable Home Network tiers, and also receive:

- 50% contribution towards the build of your showroom and training centre
- Active promotion of your Sustainable Home Centre via Daikin online channels and campaigns
- Qualified end-user leads generated via Daikin's national and regional media campaigns
- Preferential pricing which means you can sell directly to Sustainable Home Installers
- Business development fund to spend on marketing, events and rewards
- Dedicated customer account contact and system design support
- Access to our technical hotline and online customer portal

## Lead the energy for change
