Choosing the perfect colour

Choosing the right colour for your home can be daunting, with so much choice on offer it's easy to feel overwhelmed. Here at Johnstone's we have all the tools and expert guidance to make it simple and hassle-free to choose the colour that works perfectly for you and your home.

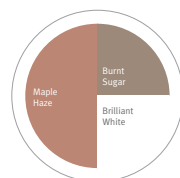

STEP 1

GET **INSPIRED** BY COLOUR

Browse the latest trend palettes and inspirational design guides within this booklet and on our website. Check out our social media for even more inspiration and real life examples!

www.johnstonespaint.com/inspiration

STEP 2

CREATE A **COLOUR** SCHEME

It's time to pick your colour scheme! Use our handy colour combinations throughout this guide for suggestions on which colours to pair together. Alternatively, you can create your own colour scheme from scratch using our colour visualiser tool.

STEP 3

TIME TO **TEST!**

Now that you've narrowed down your choices, pick up some colour testers and try them at home. Make sure you apply your colours in the room you will be using them in to see how they look under different lighting.

STEP 4

NOW GET **PAINTING!**

Once you've tested your colours and are happy with your choice, it's time to get painting! We have a wide range of colour availability in products suitable for every job, so be sure to check out each product range from pages 16 to 29.

Soothing Solace

Soothing Solace works well in relaxing spaces of the home such as living rooms and bedrooms, thanks to its soothing vibes and neutral shades. It can also be used to bring a sense of calm to busier kitchens and dining rooms.

TIP
Use this trend palette to create a striking feature design using our guide on page 14

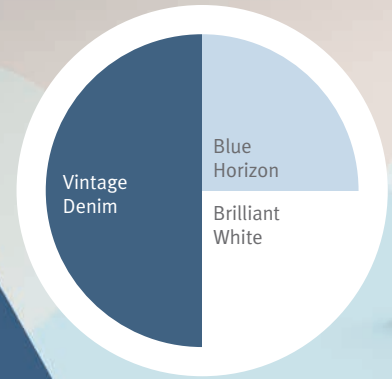

This palette focuses on embracing natural and soft hues that feel restorative and optimistic, allowing you to bring a sense of mindfulness and create comfort in your home.

TIP
Pair with soft textures and natural materials to create a relaxing ambience

The soft pastels also lend themselves to creating beautiful nurseries, meaning this palette is truly versatile and can be used throughout the home to promote a real feeling of wellness and spirituality.

Artisan Heritage

Artisan Heritage is perfect for any space that you want to inject some sophisticated creativity into. It works well for inviting social spaces within kitchens, dining and living areas. The shades can be used to create an inspiring space in a home office or reading nook, or in a bedroom to create an authentic feeling of luxury.

Natural Sage

TIP
Accessorise with bold and abstract prints on soft furnishings, such as cushions for a real artisan touch

Midnight Sapphire

The palette joins together warm, earthy shades with rich jewel tones to create a sense of artisan luxury with traditional influences.

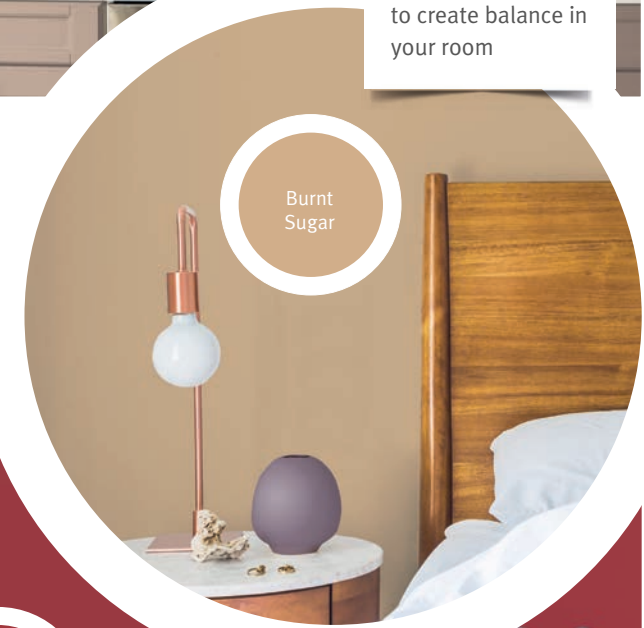

Antique White
Subtle Stone

Hemlock

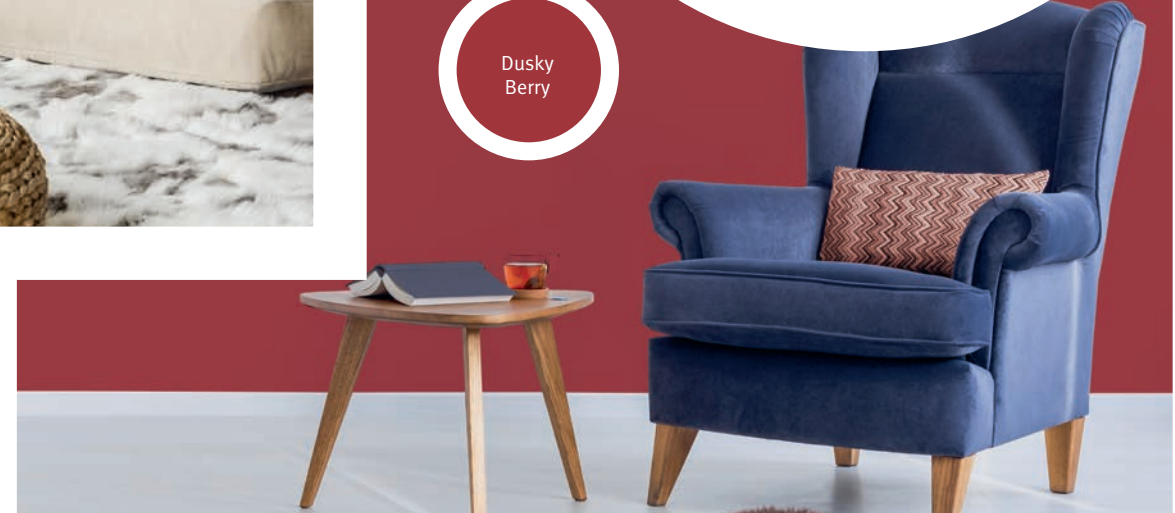

TIP
Pair richer shades with earthy neutrals to create balance in your room

Burnt Sugar

Dusky Berry

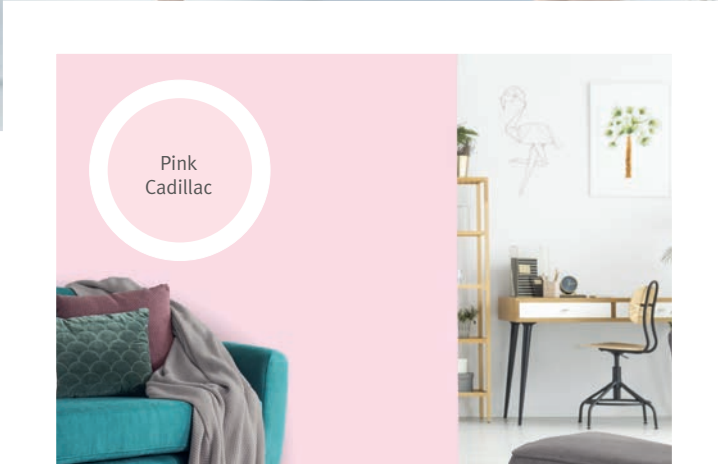

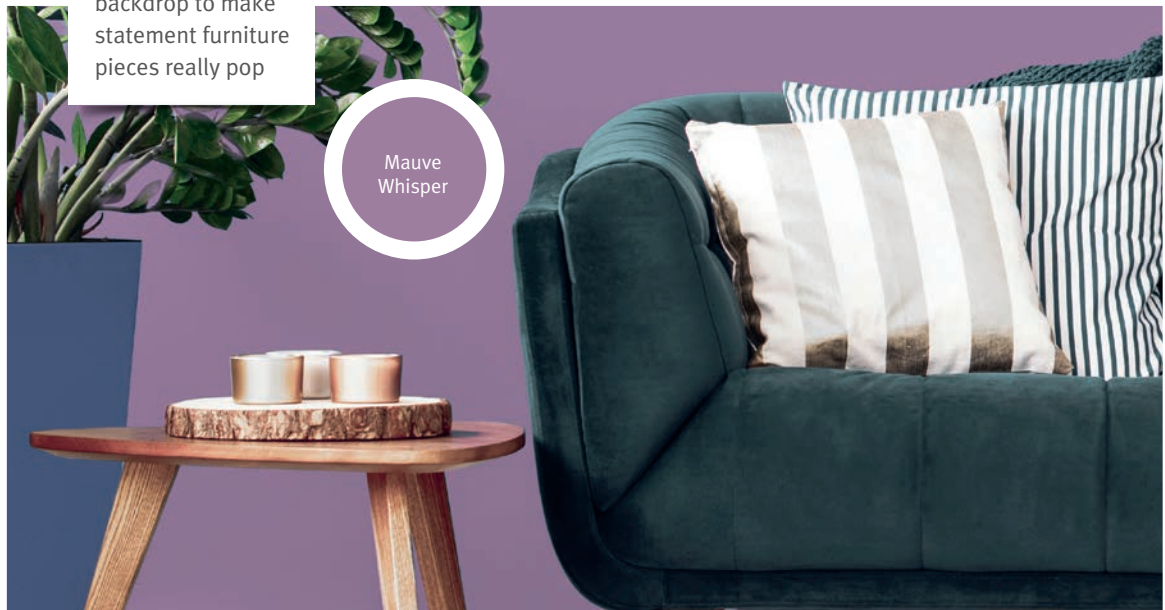

Wild Instinct

Wild Instinct allows you to experiment with bolder colours all around your home. Don't be afraid to introduce pops of colour or creative designs, even in smaller spaces to create impact.

TIP
Mix bright shades together for a fun and playful space!

TIP
Darker shades provide the perfect backdrop to make statement furniture pieces really pop

This trend is joyful and fun, with mood-boosting pops of colour. Pair back brighter shades with earthy neutrals for a playful look whilst retaining a feeling of calm and sophistication.

Bold & Feminine

We caught up with our customer Dawn to talk about her home and why she loves painting with bright and bold colours. Dawn is a stay at home mum of 3, and lives with her 2 younger children and husband in their 4 bedroom semi-detached home. They've lived in the home for 18 years, but only recently started really putting their stamp on it over the last 18 months.

“When we first moved in and the kids were young, we prioritised the home being clean and tidy over the design elements” says Dawn. “But when my eldest daughter moved out, we had a reshuffle of bedrooms which prompted an overhaul of pretty much every room! We really looked at how we use the spaces and started to experiment with different colours”.

Dawn demonstrates this experimentation throughout her home, with bold choices throughout each room which are striking and effective. “I do like to be quite daring with colour, I often think with paint it's so adaptable, so you can easily change it if you change your mind!”

“Colour is so important – it can give a different mood or feeling and can be tied in with cushions, curtains etc. ”

Tell us about your style...

“I would describe my style as quite bold – I'm definitely getting braver too. I used to hold back with paint and colour choices but now I just go for it. Making bolder choices has made me appreciate colour more, it can be so uplifting and make a huge difference in a room! I used to worry that people would think my decor was too bold or loud, but now I like to think that this is my space for me and my family so what we like is all that counts!”

Where do you find inspiration for your home?

“I take inspiration from upcycling and making old things new again. I like to give things a new lease of life. I often find a really unique piece and then decorate the room around it. I like to think outside the box and mix vintage and modern elements. I also love social media and use Instagram and Pinterest to find ideas from people that inspire me.”

Why is your home so important to you and your family?

“My home is a sanctuary for me and my family. Once you shut the door you have a safe haven, I've tried to make everything comforting and a place to relax, but I love having family and friends over to entertain too!”

How did you make the colour choices in your home?

“I try to take the time to reflect on a room and make sure I really love a colour, so using colour testers is really important to get a feel for which colours work within the space. I've found over time that I definitely have go-to colours that I always love such as greens and pinks, which you can see I've used throughout my home.

Amphibious

“My lounge is decorated with a feature wall using the shade Amphibious, which is always a talking point, especially since I paired it with my teal sofa and pink accessories! I paired it with China Clay on the opposite wall; a soft grey which complements the green so well. When I walk into that room I love it, it's my favourite living space. ”

DAWN'S TOP 5 DIY TIPS

- ✓ **Be brave!** – There are no set rules, go with your gut feeling and what you love! If it doesn't work you can always change it later.
- ✓ **Don't rush** – Live with the space and decide how you are going to use it before making a choice on colour.
- ✓ **Preparation** – The right tools and preparation are so important when applying paint. If you prep the walls properly and use the right tools, you'll always get a great finish even when doing it yourself.
- ✓ **Find the right product** – Do your homework and see what paint will work best for the room, for example when decorating bathrooms, you need a suitable paint that will withstand the environment.
- ✓ **Have fun!** – It's so important to make it fun when decorating, whether it's coming up with new exciting projects or being bold with colour.

Follow Dawn's journey on Instagram [@stylingmyhouse_](#) to see what she gets up to next!

Ballet Slipper

“ My daughter chose Ballet Slipper when we redecorated her bedroom and we both absolutely love this colour. It's a soft, subtle shade of pink and it really lifts the room. We also painted it onto the ceiling in the en-suite which looks really striking! ”

How-to create a Colour Block wall design

Checklist

- Dust sheets
- Cloth, sandpaper & filler
- Tape measure
- Low tack masking tape
- Selection of medium pile rollers & trays
- Paint brushes
- Paint!

Visit www.johnstonespaint.com for more inspirational DIY guides!

STEP 1

PREPARATION

Make sure the wall to be painted is smooth, flake free, dry and clean of grease by wiping it down before you start. Fill any holes if necessary.

STEP 2

APPLY THE BASE

Apply 1-2 coats of **Johnstone's Wall & Ceiling paint in Brilliant White** to the walls and ceiling. Depending on the previous colour you are painting, more coats may be required. Leave to dry for 1-2 hours.

STEP 3

MARK OUT YOUR SECTIONS

Divide your wall into 3 equal sections and mark out each section using masking tape, extending the tape onto the ceiling. Create two smaller sections down either side of the central wall block to form your white stripes.

STEP 4

ADD YOUR COLOUR BLOCKS

Paint the different sections using the Johnstone's colours of your choice. Here we've used '**Burnt Sugar**' from our **Wall & Ceiling** range for the background colour with **Feature Colour 'Maple Haze'** as our central colour block. Apply the paint using a roller, using a different roller for each colour. For best results, apply 2 coats, waiting 1-2 hours in between coats.

TIP Remove the masking tape whilst the paint is still tacky to achieve a neat, clean line

Feature Colours

A range of carefully selected trend colours designed to help you achieve a stylish look for your home, ideal for creating feature walls or a bold statement in any room.

Ivy Sky

TIP

Create impact by painting multiple walls in one of our bold feature colours

Warming Rays

TIP

Accessorise bolder shades with softer neutrals to balance the colour palette

COVERAGE CALCULATION

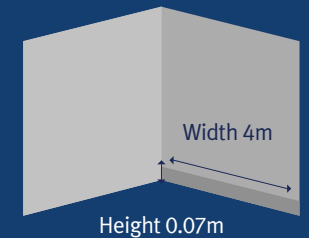

It can be difficult to determine how much paint you need for the job. Here is a helping hand on how to calculate this.

Wall Example

Calculate the space
Width x Height = 12.8m²

Skirting Board Example

Calculate the space
Width x Height = 0.28m²

Then refer to the coverage rate on the paint tin or in this guide to check how many tins you will require for the job.
